LIMITED LIFETIME WARRANTY

Compass Manufacturing International warrants to the original consumer purchaser that the faucet be free from defects in material and workmanship for as long as the original consumer purchaser owns the home in which the faucet was first installed.

In the event that Freendo faucets are used in a Commercial Application, this warranty is limited for a period of 5 years, unless otherwise specifically stated in the catalog and/or price book.

Compass Manufacturing International will replace, free of charge, during the applicable warranty period, any part or finish that proves defective in material and/or workmanship under normal installation, use and service. This warranty shall not apply to goods which have been subject to accidents, negligence or improper installation. Compass Manufacturing International will not be liable for other damages or losses, including, but not limited to: labor charges and/or damages incurred in installation, repair or replacement as well as any other kind of loss or damage. Proof of purchase from the original consumer purchaser must be made available for all warranty claims.

Compass Manufacturing International recommends using a professional plumber for all installation and repair. Compass Manufacturing International will, at its discretion, provide new or equivalent replacement parts for any product that proves to be defective under normal usage and service. Replacement parts may be obtained by emailing the address below, calling the number below or by writing to:

2. Install the cartridge⑦, cartridge sleeve⑧ and cartridge locknut⑨ into the valve body.
3. Close bathtub drain to avoid losing parts. Install escutcheon⑥ and secure it with escutcheon screws⑫ and escutcheon screw o-rings⑮. Make sure valve is in off position. Then assemble the handle⑩ and secure it with set screw⑪.

4. Apply teflon tape to two ends of shower arm② and install it to wall with shower arm flange①. And connect the shower head③ to shower arm②.

CAUTIONS:ENSURE THE RUBBER WASHER IS IN POSITION BETWEEN THE SHOWER HEAD AND SHOWER ARM.

Turn on the water and check for leaks. If there are leaks, please reinstall.
